WORK EXPERIENCE

Junior Mobile Developer
Finspire Technology

09/2022 - Present   *London, UK*

Taking further the experience that I gained during the internship by creating login, accounts, transactions, deposits, transfers and payments screen for a mobile banking app. Utilizing React Native, TypeScript, MySQL to develop a mobile app for the company's primary service for data visualization. Working in an Agile methodology environment and actively attending all scrum ceremonies. Implementing GIT and GitHub for version control.

Mobile Developer - Intern
Finspire Technology

09/2021 - 09/2022   *London, UK*

Involved in a mobile application development team working on a banking application by utilizing React Native for creating both iOS and Android applications. Working in different phases of project life cycle like design, development, and testing of application for android and iOS mobile devices. Attended in the weekly Java competition sessions within the team and always eager to learn from the other developers.

Android Developer – Intern
Let's do it PL

03/2021 - 11/2021   *Warsaw, Poland*

Worked on mobile applications by utilizing Java and Kotlin. Analyzed the requirements and designed a technical document for the requirement as a team. Worked closely with the web development team to ensure proper integration between mobile and web applications.

Software Developer – Intern
Well Business Promotion

06/2019 - 09/2019   *Sarajevo, Bosnia and Herzegovina*

Involved in a software development team working on designing a website by utilizing Figma design tool. Focused mainly on UI development and had hands-on experience in designing attractive landing pages. Implemented web design and development principles to build stable software.

EDUCATION

Master of Data Science
